#### IMPORTANT NOTE:

- Samsung NYSE FANG+ ETF (the "ETF") is a sub-fund of the Samsung ETFs Trust ("Trust"), which is an umbrella unit trust established under Hong Kong law. The ETF aims to provide investment results that, before fees and expenses, closely correspond to the performance of NYSE® FANG+™ Index ("index").
- Investment involves risk, including the loss of principal. Historical performance does not indicate future performance.
- The ETF could be subject to certain key risks such as risk of United States market technology sector concentration risks; Technology theme risks; Multicounter risks; Consumer discretionary sector risks; Equal weighted index risks; Risk associated with depositary receipts; Other currency distributions risk, etc. Please note that the above listed investment risks are not exhaustive. Investors should refer to the prospectus of Samsung NYSE FANG+ ETF for details, including the product features and risk factors. Investors should not base on this material alone to make investment decisions.
- The Manager may at its discretion pay distributions out of capital, or effectively out of capital, of the ETF, amounting to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment, resulting in an immediate reduction of the NAV per unit
